

OF U. CONVENTION CLOSES WITH BRILLIANT DANCE

One of the largest and most brilliant social functions ever given in Conneltsville was the formal reception and dance of the Fourth Degree Knights, the closing event of the Knights of Columbus convention, held last night in the parochial school hall. About 600 guests, including leading knights and their ladies from all parts of the state were in attendance. The dance was perfect in all appointments, not the slightest detail in arrangements being overlooked by the committee, of which P. J. Tormay was general chairman, in charge. The program, led by Mrs. Emma Solson and son, J. W. Solson, was of the Fourth Degree Knights and their ladies, and took place about 9 o'clock. This was one of the prettiest features of the dance. Later in the evening the dance was informal and was kept up until after midnight. The elaborate decorations were a noteworthy feature, the large hall being transformed into a veritable bower of beauty for the occasion. The Knights of Columbus colors, purple and white, predominated and formed a beautiful background for the many handsome gowns in evidence. Streamers of purple and white bunting were artistically draped about the windows and walls, while suspended from the ceiling at intervals were large baskets filled with purple, white and pink flowers. Apple blossoms adorned the lights.

The reception committee was composed of Mr. and Mrs. J. J. Dougherty, Mrs. Basil J. Solson, Mrs. James B. Sinder, Miss Catherine O'Connor, Leo Lawney, M. C. O'Connor, J. J. Cuneo, J. W. Solson, J. E. Small and P. J. Tormay, all of Conneltsville; Mrs. William Dooley, Mrs. Edward Dooley and Mrs. James Conway, Scottsdales, and Mrs. Thomas Dooley, Mrs. A. C. Hagan and Mrs. Frank Herro, Uniontown.

Why Castoria?

YEARS ago Castor Oil, Paregoric, Drops and Soothing Syrup were the remedies in common use for Infants and Children; Castor Oil so nauseating as to be almost impossible and the others all containing Opium in one form or another, but so disguised as to make them pleasant to the taste, yet really to stupefy the child and give the appearance of relief from pain.

It required years of research to find a purely vegetable combination that would take the place of these disagreeable, unpleasant and vicious remedies that from habit had become almost universal. This was the inception of, and the reason for, the introduction of Fletcher's Castoria, and for over 30 years it has proven its worth, received the praise of Physicians everywhere and become a household word among mothers.

A remedy ESPECIALLY prepared for Infants and Children and no mother would think of giving to her baby a remedy that she would use for herself, without consulting a physician.

Genuine Castoria always bears the signature of *Dr. J. C. Fletcher*

THE WOMAN ACT AND PUBLIC
SENTIMENT.

The Woman act under which the 18th

Amendment is to be enforced in Penn-

sylvania, has been severely criticized

both for what it provides in the matter

of legislation and for what it omits to

provide. Its enactment was opposed

by some wets and some dries and

supported by others who belonged to

both groups of legislators. As finally

passed it differed materially from the

form in which it was introduced and

to that extent became less satisfactory

than it would otherwise have been.

On account of the sectional rivalries

in the House and Senate the bill was

amended in some very important par-

ticulars. The principal amendment

was that of depriving the police of

acting through the police departments

of the right of inspecting places

licensed under the law and giving the

district attorneys the exclusive en-

forcement power in this particular.

But the law, says the Philadelphia

Bulletin "is by no means deprived of

its teeth by this amendment, nor the

police in any way exempt from their

duty of enforcing all laws and ordi-

nances. Advocates of law and order

and the proper exercise of the regu-

latory power of the state over such

places of common resort will strive

their case better by studying the

law for its virtues rather than in

drawing attention to any real or

imaginary faults.

By retaining the license feature of

the Brooks law the state is given

specific power to regulate the places

where non-intoxicating beverages are

sold without which and provision as

to fitness of the applicant it can

readily be conceived to what extent

these licensed places would become

undesirable in a community.

The sale of beverages defined by the

legitimate act as non-intoxicating is a

very important business under both federal

and state law hence the state has

every proper right to place restric-

tions upon the character of the per-

sons engaged in the sale of such

beverages. Without the power con-

ferred by the Woman Act there could

be an indiscriminate opening up of

places, where beverages are sold and

by persons unfit to engage in such

business. In such cases federal

authority could alone be invoked to

punish offenders against the pro-

visions of the national enforcement

law, which experience has shown to

be very slow-going and inefficient.

There is some objection that the

minimum penalties for violations of

the Woman Act are not as severe as

under the Brooks law. But maximum

penalties, says the Philadelphia

Bulletin in further discussion of the

law, "are adequate and the dis-

cretion vested in the courts affords

every opportunity for enforcement

which probably will be measured in

degree of its severity by circum-

stances and by the force of public

opinion which in the last analysis is

the measure of all law enforcement.

There is no conflict or even con-

fusion between this state law and the

act of Congress. A state license does

not furnish a loophole by which they

can be escape from federal prohibi-

tion. To the contrary, it narrows the

opportunity for evasion which would

have existed had there been no sys-

tem of state licenses for the regula-

tion of the sale of non-intoxicating

beverages. If public sentiment does not demand

a vigorous enforcement of the Woman

Act by compelling the officers of the

law to do their full duty it will fail

just as any other law has or will fail

if it has certain imperfections com-

mon to all laws; but if the law-expect-

ing element in our population gets

behind it these deficiencies will de-

velop to such a marked degree that

the next session of the General As-

sembly will be forced to amend it in

whenever particular it may be found

of being best suited to its purpose.

The selection of Grand Knight

Henry B. Brown to lead the Pen-

sylvania delegation of the Knights of

Columbus at the national convention

was meted recognition of a most

esteemed citizen and a graceful ac-

knowledge of the obligations of the

visiting delegates to the city by

which they were so cordially received

and hospitably entertained.

A Shameful Tragedy

Pittsburgh Post

The statement made before the Na-

tional Congress of Mothers and Pat-

tern Teachers Association in Wash-

ington, that 55,000 girls dis-

appeared in the United States

last year without leaving a clue

draws attention to the most shameful

tragedy of the time. The great ma-

jority of the victims is set forth

were lured from the small towns and

farms. A woman police officer of the

District of Columbia told the conven-

tion that one of the biggest needs of

the country today obviously is a

system to save the many girls dis-

tinctly lost in the migrations of the

big cities. She asked the convention

to take immediate steps to create a

central bureau and auxiliary bureaus

in all parts of the country to coordi-

nate and enlarge the facilities for

finding lost girls.

The condition described is one that

cannot be minimized. The luring

from home of one girl to become the

victim of living death is enough in

itself to sully the manhood and woman-

hood of the country. So it would be

contemptible to argue that the total

missing in a year seems large only

because thought is not given to the

fact that the population of the United

States is vast—more than 300,000,000.

Here is something in which there can

be no compromise for the law and

humanity. The number of girls dis-

appearing in the United States is a

tragic commentary upon the coun-

try.

The law should not be helpless be-

fore these outrages. No fine detec-

tive ability is necessary to deduce that

if dens of vice are permitted to exist

in cities throughout the country they

must have some system at work to

draw recruits. Each such den itself is

a violation of the law and whenever

it is allowed to exist in peace it is an

evidence of ethical indifference or

indifference on the part of the police.

Smash every such den in the coun-

try as soon as it is found and a long

step will have been taken toward the

protection of girls. All that is neces-

sary in the way of increased facilities is

a system for coordinating the police

work of the country. It cannot for a

moment be accepted that the police of

a city are unequal to closing resorts

of vice or of learning something about

their inmates. Wherever such dens

exist it is by permission of the police

and an inactive public sentiment.

The next thing is to apply the only

suitable penalty—execution—to the

monsters who live upon women. It is

a disgrace alike to the law and the

manhood of the country that a white

slave is allowed to live. The gov-

ernment that permits him to escape

with a trifling fine to repeat his of-

fense is simply joining in the traf-

fic in women. It is vitally only chur-

ging the white slave a license. The

only way to treat such degenerate

and fiends is as vicious beasts.

What would be thought of the man-

hood that would stand idly by while

a tiger or a lion were attacking

a woman? Precisely the same thing

should be thought of it when it is

maimed indifferent to the rape upon

young girls by jungle brutes in human

form from dens of the cities. No mat-

ter how many may be found engaged

in traffic in women, not one of them

should be allowed to live—their death

will help to make the globe a better

place for humanity.

Rid the United States without fur-

ther delay of the monsters who are

luring young girls to destruction by

the thousands.

MOUNT PLEASANT, May 12.—A very early morning just before daylight a brick was thrown through the plate glass window of George Toilet-Baum clothing store at Main street and Mulling avenue. At 6:30 o'clock men going to work called Mr. Toilet-Baum who went carefully over his stock. He discovered only a suit and hat were missing. The thief is out of luck in getting the suit as the trousers were green and the coat and vest brown.

Yesterday morning about 9 o'clock an alarm was sent in for fire at the American Legion home at St. Clair and Main streets. The fire started in the kitchen of the home by a curtain blowing over the gas. Very little damage was done.

GIRLS! LEMONS BLEACH THE SKIN

Squeeze the juice of two lemons into a bottle containing three ounces of Orsard White, which any drug store will supply for a few cents, shake well and you have a quarter pint of harmless and delightful lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day then shortly note the beauty and whiteness of your skin.

Famous stage beauties use this lemon lotion to bleach and bring that soft clear, rosy, white complexion also as a freckle, sunburn, and tan bleach because it doesn't irritate—Ad.

INGROWN TOE NAIL TURNS OUT ITSELF

A few drops of 'Outgro' upon the skin surrounding the ingrowing nail reduces inflammation and pain and so softens the tender sensitive skin underneath the toe nail that it can not penetrate the flesh, and the nail turns naturally outward almost over night.

'Outgro' is a harmless, antiseptic manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions—Ad.

**GRANDSTAND WILL BE READY
FOR OPENING GAME ON MAY
21, WILL BE BANNER EVENT**

**Sale of Booster Day Tickets Is
Reported To Be Going
Along Merrily.**

FRICK LEAGUE STANDING

Although it had begun to look as though it might be necessary to postpone the opening game to await the completion of the grandstand, the management of the Conneltsville Independents have been assured that this structure will be completed by that time and the game will go on as scheduled.

The contractor in charge has promised to get the lumber on the ground immediately, start the actual work on Monday, and put enough men on the work to complete it by Friday. Both Herrod and Hauser have been notified to be on hand for the game, although it has not been definitely announced who will pitch.

There will be only one set of bleachers, this season, the lumber of the other set used last year being used in the grandstand. It is felt that the seating capacity will be adequate, as the new stand will hold between 500 and 600 persons.

There will be six boxes which may be reserved for games and also a press box. In addition, there will be a refreshment stand in connection with it. A driveway leading will allow the passing of automobiles which will be lined up along the first-base line.

The work on the field has been awarded to Contractor M. Duggan and when he has finished the infield ought to be in better shape than for years. The sale of Booster Day tickets, to be honored at any game during the year for a single admission, is going along at a lively rate. Individuals interested in the Independents are buying the tickets readily, willing to give a "boost" to the representative nine from this city.

YOUNG GIRLS NEED CARE

Mothers! Watch Your Daughters' Health

Health is Happiness

From the time a girl reaches the age of twelve until womanhood is established she needs all the care the thoughtful mother can give.

The condition that the girl is then passing through is so critical and may have such far-reaching effects upon her future happiness and health that it is almost criminal for a mother or guardian to withhold counsel or advice.

Many a woman has suffered years of prolonged pain and misery through having been the victim of thoughtlessness or ignorance on the part of those who should have guided her through the dangers and difficulties that beset this period.

Mothers should teach their girls what danger comes from standing around so with cold or wet feet, from lifting heavy articles, and from overworking. Do not let her overexert herself. If she complains of any ailment, advise her to read the book.

plains of headache, pains in the back and lower limbs or if you notice a slowness of action, nervousness or irritability on the part of your daughter, make life easier for her. She needs thoughtful care for a few years.

In all such cases Lydia E. Pinkham's Vegetable Compound should be given as it is especially adapted for such conditions. It contains nothing that can injure and can be taken in perfect safety.

Read how Mrs. Elmer helped her daughter. She says: "At the age of sixteen my daughter was having trouble every month. She had pains across her back and in her sides. Every month her back would pain her so she could not do her work and would have to lie down. My married daughter recommended Lydia E. Pinkham's Vegetable Compound and I read the book which was left at my door. She took it faithfully and is now regular and has no pain. We recommend the Vegetable Compound and give you permission to publish this letter in your little book and in the newspapers."

Mrs. KATIE ECHOLS, 4054 N. Fifth St., Philadelphia, Pa. Mrs. Williams will profit by her own experience. She says: "When I was thirteen years old I had sick spells each month and as I was very backward I would bear the pain and my mother knew nothing about it. I read in the daily paper about Lydia E. Pinkham's Vegetable Compound and took my own spending money and bought a bottle. It helped me so much that I took it regularly after that until I had taken two bottles and I did not have any more pain or backache and have been a healthy, strong woman. I am now 30 years old and have a little girl of my own, and when she gets old enough I shall give her one other than Lydia E. Pinkham's Vegetable Compound."

For almost fifty years Lydia E. Pinkham's Vegetable Compound has been relieving women, young and old, of ailments peculiar to their sex. Ask your neighbor about it, for in every neighborhood there are women who know of its merits. Thousands of letters similar to the above are in the files of the Lydia E. Pinkham Medicine Co. and for years such letters have been published. Surely it is worth your while to make a fair trial of Lydia E. Pinkham's Vegetable Compound.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

Teamster's Life Saved.
"Peterson Ointment Co., Inc. I had a very severe sore on my face for years. I am a teamster. I tried all medicines and salves, but without success. I tried doctors, but they failed to cure me. I couldn't sleep for many nights from pain. Doctors said I could not live for more than two years. Finally Peterson's Ointment was recommended to me and by its use the sore was entirely healed. Thankfully yours, William Hasse, West Park, Ohio, care P. O. Box 118." —Adv.

HOW IT HELPS.
What It Does to Promote the Welfare of the Community.

By being a strong, reliable public-spirited institution; by guiding your funds carefully; by loaning money to assist legitimate business; by giving prompt, dependable service in all financial transactions, the old reliable First National, "the bank that does things for you," for 46 years has been an important factor in the growth of Conneltsville, and the promotion of business.—Adv.

About Digestion.
It is claimed that only half as much food is required when it is thoroughly masticated. Digestion begins in the mouth and a thorough mastication of the food is of the greatest importance. When needed take Chamberlain's Tablets to strengthen the digestion and insure a regular movement of the bowels.—Adv.

Writes His Thanks from Washington.
Only men and women who have suffered from kidney trouble can realize how grateful one feels for relief from suffering. Nathan Harned, 621 N. St., N. W., Washington, D. C., writes: "I was troubled with my kidneys for years, but got no relief until I took Foley Kidney Pills. Now I think I am well and thank you very much. They act quickly; tonic in effect. Sold everywhere.—Adv."

Modes of the Moment in Millinery

—are varied as the places where hats are to be worn.

OF INSTANCE, there are smart street and suit hats, tailored to a nicely, very simple and very elegant with tulle and favorite fabric, although some are found in straw and fancy braids. There is individuality in every one and, so varied are the styles, there is exclusiveness, also.

With frocks of silk one wants a dressy hat, something that is gay in color and lower trimmings—and in this group are lovely light tulle and straw in many becoming styles.

Sweaters and Jersey suits set the pace for sports hats in May—a sports hat that is a sister to the tailleur and that gives the business air so much desired. Milan, Huguette and hamp are the materials.

For real sports wear—motoring, golfing and such are shown many beautiful hats in lighter shades of silks and ribbons, for between the two are distinction as great as between May and July.
